

RACING CP

Level 2 Chest Protection

Mitigate Fear. Prevent Injury.

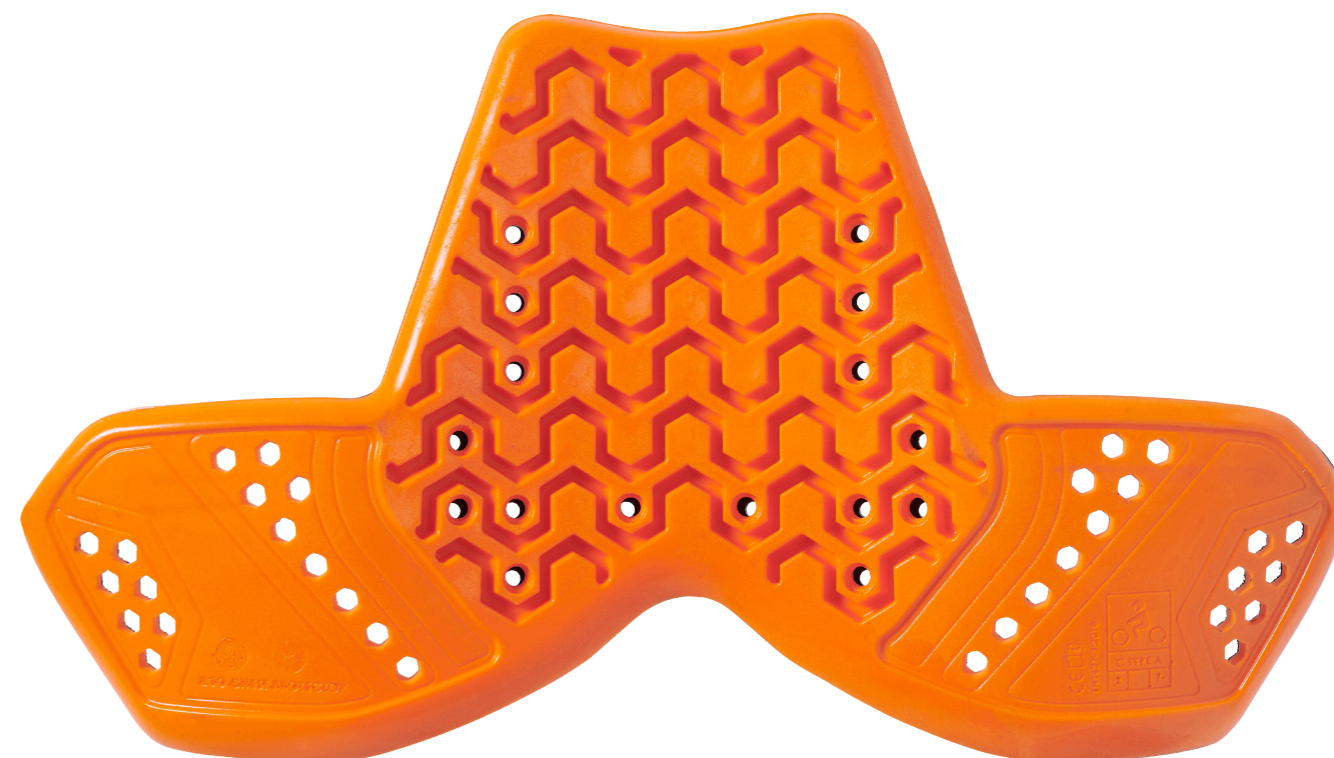

D3O's dilatant materials are designed to absorb and dissipate energy in response to blunt force impact.

The D3O® Racing Chest Protector has been specially engineered to deliver lightweight, maximum protection for two-wheel racers.

Its low-profile, dynamic fit allows it to shape perfectly beneath race suits for optimal comfort, while meeting the highest certified level of motorcycle protection. The D3O® Racing Chest Protector offers extended coverage across the sternum and ribs, with a customisable polycarbonate shell for enhanced protection.

Product Features

- Patented D3O® impact protection technology
- Type A coverage
- Exceeds EN 1621-3:2018, Level 2
- UKCA Certified
- Soft, flexible and breathable for improved comfort and fit
- Low-profile, dynamic fit for extreme comfort
