

D30® COMFORT INSOLE

D30® COMFORT INSOLE

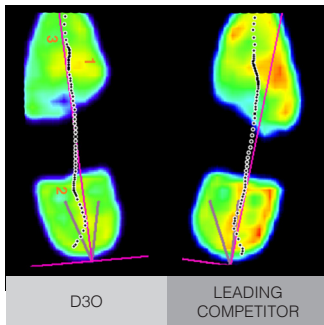

D30 uses patented, patent-pending and proprietary technologies to make rate-sensitive, soft, flexible materials with high shock absorbing properties.

The D30® Comfort Insole offers long-term comfort, cushioning and injury prevention. Suitable for all types of footwear, this high performance insole is ideal for day to day use to reduce the impact forces created by walking, running and sports.

- Impact pressure distribution
- Durable high performance D30 material throughout
- Moulded for comfort and support
- Long-term shock absorption
- Lightweight
- Trimmable for perfect fit

DURABLE HIGH PERFORMANCE D30 MATERIAL THROUGHOUT

The D30 Insole (left) reduces the pressure felt on the underside of the foot (green = low pressure). The competitor insole (right) fails to match this (red = high pressure). The acceleration control is also maintained much better by the D30 Insole, highlighted by the fact that the black dotted line is more consistent along the pink midline.*

*Testing conducted by Rightstride® Orthotics.
